Cephalalgia 1998;18. Oslo. ISSN 0333-1024

# Subject index

$5HT_{1B/1D}$ agonists
Differential effects of the $5HT_{1B/1D}$ receptor agonist naratriptan on trigeminal versus spinal nociceptive responses, 659
cardiovascular safety of $5HT_{1B/1D}$ agonists—Is there a cause for concern? 539
$5HT_1$ agonist
Tolerability and efficacy of naratriptan tablets with long-term treatment (6 months), 33
$5HT_1$-like receptors
Differential effects of migraine drugs on cerebral blood flow autoregulation, 306
5-hydroxyindoleacetic acid
Serotonin metabolism in cluster headache, 94
acetaminophen
Ketoprofen (25 mg) in the symptomatic treatment of episodic tension-type headache: double-blind placebo-controlled comparison with acetaminophen (1000 mg), 38
activated protein C (APC) resistance
Genetic abnormalities of the protein C system: shared risk factors in young adults with migraine with aura and with ischemic stroke? 618
administration forms
Efficacy and adverse events of subcutaneous, oral, and intranasal sumatriptan used for migraine treatment: a systematic review based on number needed to treat, 532
adolescence
Evolution of headache in childhood and adolescence: an 8-year follow-up, 449
adolescence
Headache and psychiatric comorbidity: clinical aspects and outcome in an 8-year follow-up study, 455
adverse events
cardiovascular safety of $5HT_{1B/1D}$ agonists—Is there a cause for concern? 539
Safety trial with the $5HT_{1B/1D}$ agonist avitriptan (BMS-180048) in patients with migraine who have experienced pressure, tightness, and/or pain in the chest, neck, and/or throat following sumatriptan, 546
aging
Age-related cerebrovascular disease alters the symptomatic course of migraine, 202
alternative medicine
Feverfew as a preventive treatment for migraine: a systematic review, 704
aortic dissection
Headache as the initial manifestation of acute aortic dissection type A, 583
associated symptoms
Pain location and associated symptoms in post-lumbar puncture headache, 697
atraumatic needle
Significant reduction in post-lumbar puncture headache using an atraumatic needle. A double-blind, controlled clinical trial, 635
attack
EEG spectral analysis in migraine without aura attacks, 324
auditory event-related potential
Interictal potentiation of passive "oddball" auditory event-related potentials in migraine, 261
autonomic nervous system
Peripheral autonomic potentials in primary headache and drug-induced headache, 216
autoregulation
Differential effects of migraine drugs on cerebral blood flow autoregulation, 306
avitriptan
Safety trial with the $5HT_{1B/1D}$ agonist avitriptan (BMS-180048) in patients with migraine who have experienced pressure, tightness, and/or pain in the chest, neck, and/or throat following sumatriptan, 546
benign cough headache
Benign cough "cluster" headache, 493
blood pressure
Combined evaluation of pupillary and cardiovascular responses to cold pressor test in cluster headache patients, 668
carotid artery dissection
Headache as the initial manifestation of acute aortic dissection type A, 583
catecholaminergic nerve fiber
Cerebral dura mater and cephalalgia: relationships between mast cells and catecholaminergic nerve fibers in the rat,183
cavernus sinus
Craniometric measures in cluster headache patients, 143
CCDFI
Role of vertebral artery hypoplasia in migraine, 684
CD3/CD16/CD56 triple positive lymphocytes
Flow cytometric analysis of lymphocyte subsets in migraine patients during and outside of an acute headache attack, 197
cell signalling
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
central nervous system
Abnormal 24-hour urinary excretory patter n of 6-sulphatoxymelatonin in both phases of cluster headache, 664
cephalalgia
Cerebral dura mater and cephalalgia: relationships between mast cells and catecholaminergic nerve fibers in the rat,183
cerebral blood flow (CBF)
Cerebral blood flow changes in pseudomigraine with pleocytosis analyzed by single photon emission computed tomography. A spreading depression mechanism? 570
Differential effects of migraine drugs on cerebral blood flow autoregulation, 306
cerebral hemodynamics
Indomethacin increases the effect of isosorbide dinitrate on cerebral hemodynamic in migraine patients: pathogenetic and therapeutic implications, 622

cerebrovascular autoregulation
Myogenic cerebrovascular autoregulation in migraine measured by stress transcranial Doppler sonography, 133
cerebrovascular $CO_2$ reactivity
No effect of prophylactic treatment with metoprolol on cerebrovascular $CO_2$ reactivity in migraineurs, 353
cerebrovascular disease
Age-related cerebrovascular disease alters the symptomatic course of migraine, 202
cervical headache
The psychological profiles of patients with whiplash-associated headache, 101
cervicogenic headache
Glycerol gangliotomy of the second dorsal cervical root in rats: an experimental study to evaluate a minimal invasive approach for the treatment of the chronic cervicogenic headache, 612
Headache after whiplash: a historical cohort study outside the medico-legal context, 559
Photophobia and phonophobia in tension-type and cervicogenic headache, 313
cGMP
Level of nitric oxide-dependent cGMP in patients with migraine, 631
chest symptoms
Safety trial with the $5HT_{1B/1D}$ agonist avitriptan (BMS-180048) in patients with migraine who have experienced pressure, tightness, and/or pain in the chest, neck, and/or throat following sumatriptan, 546
childhood
Evolution of headache in childhood and adolescence: an 8-year follow-up, 449
Headache and psychiatric comorbidity: clinical aspects and outcome in an 8-year follow-up study, 455
Migraine in childhood and adolescence. A critical study of the diagnostic criteria and of the influence of age on clinical findings, 333
childhood headache
Biofeedback-assisted relaxation training for young adolescents with tension-type headache: a controlled study, 463
Chile
Epidemiology of tension-type headache in Santiago, Chile: a prevalence study, 552
chronic daily headache
An interregional comparative study of headache clinic populations, 57
Contingent negative variation in patients with chronic daily headache, 565
Quality of life in migraine and chronic daily headache patients, 638
chronic paroxysmal hemicrania
Chronic paroxysmal hemicrania-tic syndrome, 159
chronic paroxysmal hemicrania-tic syndrome
Chronic paroxysmal hemicrania-tic syndrome, 159
circadian rhythm
The hypnic ("alarm clock") headache syndrome, 152
cluster headache
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
Abnormal 24-hour urinary excretory patter n of 6-sulphatoxymelatonin in both phases of cluster headache, 664
Chronic paroxysmal hemicrania-tic syndrome, 159
Craniometric measures in cluster headache patients, 143
Gender ratio of cluster headache over the years: a possible role of changes in lifestyle, 138
Premonitory and prodromal symptoms in cluster headache, 91
Quantitative evaluation of photophobia and phonophobia in cluster headache, 250
Serotonin metabolism in cluster headache, 94
Sumatriptan nasal spray (20 mg/dose) in the acute treatment of cluster headache, 487
cluster-tic
Chronic paroxysmal hemicrania-tic syndrome, 159
cognitive processing
Cognitive processing in migraine: a failure to find facilitation in patients with aura, 125
compliance
Noncompliance may render migraine prophylaxis useless, but once-daily regimens are better, 52
computer
Effect of operationalized computer diagnosis on the therapeutic results of sumatriptan in general practice, 481
contingent negative variation
Contingent negative variation in patients with chronic daily headache, 565
cost equivalent number (CEN)
Migraine preventive medications: a reappraisal, 605
cough headache
Cough headache responsive to methysergide, 495
craniometry
Craniometric measures in cluster headache patients, 143
diagnosis
Migraine in childhood and adolescence. A critical study of the diagnostic criteria and of the influence of age on clinical findings, 333
diazepam
Effects of the antimigraine compound zolmitriptan ('Zomig') on psychomotor performance alone and in combination with diazepam in healthy volunteers, 468
disability
Reliability of an illness severity measure for headache in a population sample of migraine sufferers, 44
discomfort and pain threshold
Photophobia and phonophobia in tension-type and cervicogenic headache, 313
Phonophobia in migraine, 243
dopamine
Dopamine and migraine: a review of pharmacological, biochemical, neurophysiological, and therepeutic data, 174
dosing regimen
Noncompliance may render migraine prophylaxis useless, but once-daily regimens are better, 52
drug-induced headache
Peripheral autonomic potentials in primary headache and drug-induced headache, 216
dura mater
Cerebral dura mater and cephalalgia: relationships between mast cells and catecholaminergic nerve fibers in the rat,183

EEG
EEG spectral analysis in migraine without aura attacks, 324
efficacy
Ketoprofen (25 mg) in the symptomatic treatment of episodic tension-type headache: double-blind placebo-controlled comparison with acetaminophen (1000 mg), 38
Noncompliance may render migraine prophylaxis useless, but once-daily regimens are better, 52
electromyographic biofeedback
Biofeedback-assisted relaxation training for young adolescents with tension-type headache: a controlled study, 463
electrophysiology
Differential effects of the $5HT_{1B/1D}$ receptor agonist naratriptan on trigeminal versus spinal nociceptive responses, 659
employment rate
Gender ratio of cluster headache over the years: a possible role of changes in lifestyle, 138
enantiomer
S-fluoxetine in the prophylaxis of migraine: a phase II double-blind randomized placebo-controlled study, 283
epidemiology
Epidemiology of tension-type headache in Santiago, Chile: a prevalence study, 552
Screening for migraine in the general population: validation of a simple questionnaire, 342
episodic cluster headache
Benign cough "cluster" headache, 493
episodic tension-type headache
Ketoprofen (25 mg) in the symptomatic treatment of episodic tension-type headache: double-blind placebo-controlled comparison with acetaminophen (1000 mg), 38
ergot alkaloid
Methysergide, 421
ergotamine
Differential effects of migraine drugs on cerebral blood flow autoregulation, 306
evolution over time
Migraine with aura: a review of 81 patients at 10–20 years' follow-up, 690
expert system
Effect of operationalized computer diagnosis on the therapeutic results of sumatriptan in general practice, 481
facial pain
Facial pain in a case of cranial dystonia: a case report, 709
feverfew
Feverfew as a preventive treatment for migraine: a systematic review, 704
fibrosis
Methysergide, 421
flow cytometry
Flow cytometric analysis of lymphocyte subsets in migraine patients during and outside of an acute headache attack, 197
flunarizine
Flunarizine in migraine prophylaxis: predictive factors for a positive response, 349
flunarizine
Migraine with aura shows gadolinium enhancement which is reversed following prophylactic treatment, 644
flunarizine responsiveness
The hypnic headache syndrome: report of three new cases, 157
fluoxetine
S-fluoxetine in the prophylaxis of migraine: a phase II double-blind randomized placebo-controlled study, 283
follow-up
Evolution of headache in childhood and adolescence: an 8-year follow-up, 449
Headache and psychiatric comorbidity: clinical aspects and outcome in an 8-year follow-up study, 455
The hypnic ("alarm clock") headache syndrome, 152
forearm blood flow
Effect of subcutaneous naratriptan on forearm blood flow, 476
G proteins
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
gadolinium enhancement (Gd-DTP)
Migraine with aura shows gadolinium enhancement which is reversed following prophylactic treatment, 644
gender differences
Evolution of headache in childhood and adolescence: an 8-year follow-up, 449
general population
Screening for migraine in the general population: validation of a simple questionnaire, 342
genetics
Migraine and prothrombotic genetic risk factors, 257
Giα mRNA
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
glaucoma
Migraine and glaucoma: an epidemiologic survey of French ophthalmologists, 74
glycerol injection
Glycerol gangliotomy of the second dorsal cervical root in rats: an experimental study to evaluate a minimal invasive approach for the treatment of the chronic cervicogenic headache, 612
Gqα mRNA
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
GTN
Effect of subcutaneous naratriptan on forearm blood flow, 476
habituation
Contingent negative variation in patients with chronic daily headache, 565
Interictal potentiation of passive "oddball" auditory event-related potentials in migraine, 261
hardness meter
Measurement of muscle hardness: a methodological study, 106

head
Reliability of cephalic thermal thresholds in healthy subjects, 574
head pain
Orbital pain as an isolated sign of internal carotid artery dissection. A diagnostic pitfall, 222
headache
Headache as the initial manifestation of acute aortic dissection type A, 583
Idiopathic spontaneous subdural hemorrhage, 490
Medication patterns of recurrent headache sufferers: a community study, 146
Migraine in childhood and adolescence. A critical study of the diagnostic criteria and of the influence of age on clinical findings, 333
Nonpharmacological treatment for migraine: incremental utility of physical therapy with relaxation and thermal biofeedback, 266
Pain location and associated symptoms in post-lumbar puncture headache, 697
Structural and neurochemical markers of brain injury in the migraine diathesis of systemic lupus erythematosus, 209
Sumatriptan nasal spray (20 mg/dose) in the acute treatment of cluster headache, 487
The hypnic ("alarm clock") headache syndrome, 152
The psychological profiles of patients with whiplash-associated headache, 101
The time course of post-lumbar puncture headache, 97
Thermal sensitivity in unilateral headaches, 675
Trigger points and myofascial pain: toward understanding how they affect headaches, 436
headache clinic
An interregional comparative study of headache clinic populations, 57
headache diagnosis
Effect of operationalized computer diagnosis on the therapeutic results of sumatriptan in general practice, 481
headache epidemiology
An interregional comparative study of headache clinic populations, 57
headache follow-up
Migraine with aura: a review of 81 patients at 10–20 years' follow-up, 690
healthy volunteers
Effects of the antimigraine compound zolmitriptan ('Zomig') on psychomotor performance alone and in combination with diazepam in healthy volunteers, 468
hemicrania continua
Hemicrania continua in an HIV-infected outpatient, 287
hemodynamics
Myogenic cerebrovascular autoregulation in migraine measured by stress transcranial Doppler sonography, 133
hemostasis
Migraine and prothrombotic genetic risk factors, 257
herbal medicine
Feverfew as a preventive treatment for migraine: a systematic review, 704
HIV infection
Hemicrania continua in an HIV-infected outpatient, 287
hyperexcitability
Cognitive processing in migraine: a failure to find facilitation in patients with aura, 125
hypnic headache syndrome
Hypnic headache syndrome: a case with good response to indomethacin, 225
Reply to Dr Ravishankar, 712
The hypnic headache syndrome: report of three new cases, 157
hypothalamus
Abnormal 24-hour urinary excretory patter n of 6-sulphatoxymelatonin in both phases of cluster headache, 664
hypothyroidism
Headache in hypothyroidism. Prevalence and outcome under thyroid hormone therapy, 687
ictal endothelin
Endothelin in migraine patients, 329
indomethacin
Hypnic headache syndrome: a case with good response to indomethacin, 225
Indomethacin increases the effect of isosorbide dinitrate on cerebral hemodynamic in migraine patients: pathogenetic and therapeutic implications, 622
interictal
Endothelin in migraine patients, 329
internal carotid artery
Head pain associated with sixth-nerve palsy: spontaneous dissection of the internal carotid artery, 112
internal carotid artery dissection
Orbital pain as an isolated sign of internal carotid artery dissection. A diagnostic pitfall, 222
ischemic stroke
Genetic abnormalities of the protein C system: shared risk factors in young adults with migraine with aura and with ischemic stroke? 618
ketoprofen
Ketoprofen (25 mg) in the symptomatic treatment of episodic tension-type headache: double-blind placebo-controlled comparison with acetaminophen (1000 mg), 38
lacrimation
Trigeminal neuralgia with lacrimation or SUNCT syndrome? 85
late-life migrainous accompaniments
Age-related cerebrovascular disease alters the symptomatic course of migraine, 202
lifestyle
Gender ratio of cluster headache over the years: a possible role of changes in lifestyle, 138
long-term
J Tolerability and efficacy of naratriptan tablets with long-term treatment (6 months), 33
low cerebrospinal fluid pressure
Pain location and associated symptoms in post-lumbar puncture headache, 697
The time course of post-lumbar puncture headache, 97
lumbar puncture
Pain location and associated symptoms in post-lumbar puncture headache, 697
The time course of post-lumbar puncture headache, 97

lupus erythematosus—systemic
Structural and neurochemical markers of brain injury in the migraine diathesis of systemic lupus erythematosus, 209
lymphocyte subsets
Flow cytometric analysis of lymphocyte subsets in migraine patients during and outside of an acute headache attack, 197
mast cells
Cerebral dura mater and cephalalgia: relationships between mast cells and catecholaminergic nerve fibers in the rat,183
medication event monitoring systems
Noncompliance may render migraine prophylaxis useless, but once-daily regimens are better, 52
melatonin
Abnormal 24-hour urinary excretory patter n of 6-sulphatoxymelatonin in both phases of cluster headache, 664
methysergide
Cough headache responsive to methysergide, 495
Methysergide, 421
metoprolol
No effect of prophylactic treatment with metoprolol on cerebrovascular $CO_2$ reactivity in migraineurs, 353
migraine
A study of adaptive responses in cell signaling in migraine and cluster headache: correlations between headache type and changes in gene expression, 192
Altered allelic distributions of the serotonin transporter gene in migraine without aura and migraine with aura, 23
Contingent negative variation in patients with chronic daily headache, 565
Dopamine and migraine: a review of pharmacological, biochemical, neurophysiological, and therepeutic data, 174
EEG spectral analysis in migraine without aura attacks, 324
Endothelin in migraine patients, 329
Feverfew as a preventive treatment for migraine: a systematic review, 704
Flow cytometric analysis of lymphocyte subsets in migraine patients during and outside of an acute headache attack, 197
Flunarizine in migraine prophylaxis: predictive factors for a positive response, 349
Headache after whiplash: a historical cohort study outside the medico-legal context, 559
Headache and psychiatric comorbidity: clinical aspects and outcome in an 8-year follow-up study, 455
Headache as the initial manifestation of acute aortic dissection type A, 583
Interictal potentiation of passive "oddball" auditory event-related potentials in migraine, 261
Methysergide, 421
Migraine and glaucoma: an epidemiologic survey of French ophthalmologists, 74
Migraine and prothrombotic genetic risk factors, 257
Migraine in childhood and adolescence. A critical study of the diagnostic criteria and of the influence of age on clinical findings, 333
Migraine with aura: a review of 81 patients at 10–20 years' follow-up, 690
Myogenic cerebrovascular autoregulation in migraine measured by stress transcranial Doppler sonography, 133
Nitric oxide synthase inhibition: a new principle in the treatment of migraine attacks, 27
No effect of prophylactic treatment with metoprolol on cerebrovascular $CO_2$ reactivity in migraineurs, 353
Nonpharmacological treatment for migraine: incremental utility of physical therapy with relaxation and thermal biofeedback, 266
Oculosympathetic alterations in migaine patients, 77
Orbital pain as an isolated sign of internal carotid artery dissection. A diagnostic pitfall, 222
Phonophobia in migraine, 243
Quality of life in migraine and chronic daily headache patients, 638
Reliability of an illness severity measure for headache in a population sample of migraine sufferers, 44
Role of vertebral artery hypoplasia in migraine, 684
Safety trial with the $5HT_{1B/1D}$ agonist avitriptan (BMS-180048) in patients with migraine who have experienced pressure, tightness, and/or pain in the chest, neck, and/or throat following sumatriptan, 546
Screening for migraine in the general population: validation of a simple questionnaire, 342
S-fluoxetine in the prophylaxis of migraine: a phase II double-blind randomized placebo-controlled study, 283
Structural and neurochemical markers of brain injury in the migraine diathesis of systemic lupus erythematosus, 209
Tolerability and efficacy of naratriptan tablets with long-term treatment (6 months), 33
migraine-like syndrome
Cerebral blood flow changes in pseudomigraine with pleocytosis analyzed by single photon emission computed tomography. A spreading depression mechanism? 570
migraine aura without headache
Migraine with aura: a review of 81 patients at 10–20 years' follow-up, 690
Pattern reversal visual evoked potentials in migraine with aura and migraine aura without headache, 319
migraine costs
Migraine preventive medications: a reappraisal, 605
migraine equivalent
Pattern reversal visual evoked potentials in migraine with aura and migraine aura without headache, 319
migraine headache
Evolution of headache in childhood and adolescence: an 8-year follow-up, 449
migraine prevention
Migraine preventive medications: a reappraisal, 605
migraine prophylaxis
Noncompliance may render migraine prophylaxis useless, but once-daily regimens are better, 52
migraine therapy
Nitric oxide synthase inhibition: a new principle in the treatment of migraine attacks, 27

migraine treatment
Efficacy and adverse events of subcutaneous, oral, and intranasal sumatriptan used for migraine treatment: a systematic review based on number needed to treat, 532
Migraine preventive medications: a reappraisal, 605
migraine with aura
Genetic abnormalities of the protein C system: shared risk factors in young adults with migraine with aura and with ischemic stroke? 618
Migraine with aura shows gadolinium enhancement which is reversed following prophylactic treatment, 644
Migraine with aura: a review of 81 patients at 10–20 years' follow-up, 690
Pattern reversal visual evoked potentials in migraine with aura and migraine aura without headache, 319
MRI
Migraine with aura shows gadolinium enhancement which is reversed following prophylactic treatment, 644
muscle
Trigger points and myofascial pain: toward understanding how they affect headaches, 436
muscle hardness
Measurement of muscle hardness: a methodological study, 106
myofascial pain
Trigger points and myofascial pain: toward understanding how they affect headaches, 436
naloxone
Combined evaluation of pupillary and cardiovascular responses to cold pressor test in cluster headache patients, 668
naratriptan
Differential effects of the $5HT_{1B/1D}$ receptor agonist naratriptan on trigeminal versus spinal nociceptive responses, 659
Effect of subcutaneous naratriptan on forearm blood flow, 476
Tolerability and efficacy of naratriptan tablets with long-term treatment (6 months), 33
nasal spray
Sumatriptan nasal spray (20 mg/dose) in the acute treatment of cluster headache, 487
neck
Reliability of cephalic thermal thresholds in healthy subjects, 574
neck pain
The psychological profiles of patients with whiplash-associated headache, 101
neurophysiology
Contingent negative variation in patients with chronic daily headache, 565
nitrate-induced headache
Indomethacin increases the effect of isosorbide dinitrate on cerebral hemodynamic in migraine patients: pathogenetic and therapeutic implications, 622
nitric oxide
Indomethacin increases the effect of isosorbide dinitrate on cerebral hemodynamic in migraine patients: pathogenetic and therapeutic implications, 622
Nitric oxide synthase inhibition: a new principle in the treatment of migraine attacks, 27
normal subjects
Reliability of cephalic thermal thresholds in healthy subjects, 574
NOS inhibition
Nitric oxide synthase inhibition: a new principle in the treatment of migraine attacks, 27
nuclear magnetic resonance
Structural and neurochemical markers of brain injury in the migraine diathesis of systemic lupus erythematosus, 209
number needed to treat (NNT)
Efficacy and adverse events of subcutaneous, oral, and intranasal sumatriptan used for migraine treatment: a systematic review based on number needed to treat, 532
oral dystonia
Facial pain in a case of cranial dystonia: a case report, 709
over-the-counter medication
Medication patterns of recurrent headache sufferers: a community study, 146
P300
Interictal potentiation of passive "oddball" auditory event-related potentials in migraine, 261
pain
Combined evaluation of pupillary and cardiovascular responses to cold pressor test in cluster headache patients, 668
pain location
Pain location and associated symptoms in post-lumbar puncture headache, 697
passive oddball paradigm
Interictal potentiation of passive "oddball" auditory event-related potentials in migraine, 261
pathogenesis
Craniometric measures in cluster headache patients, 143
Dopamine and migraine: a review of pharmacological, biochemical, neurophysiological, and therepeutic data, 174
pathophysiology
Endothelin in migraine patients, 329
The hypnic ("alarm clock") headache syndrome, 152
pattern reversal visual evoked potentials
Pattern reversal visual evoked potentials in migraine with aura and migraine aura without headache, 319
peripheral autonomic potentials
Peripheral autonomic potentials in primary headache and drug-induced headache, 216
phenylephrine
Oculosympathetic alterations in migaine patients, 77
phonophobia
Phonophobia in migraine, 243
Photophobia and phonophobia in tension-type and cervicogenic headache, 313
Quantitative evaluation of photophobia and phonophobia in cluster headache, 250
photophobia
Photophobia and phonophobia in tension-type and cervicogenic headache, 313
Quantitative evaluation of photophobia and phonophobia in cluster headache, 250

physical therapy
Nonpharmacological treatment for migraine: incremental utility of physical therapy with relaxation and thermal biofeedback, 266
placebo
Ketoprofen (25 mg) in the symptomatic treatment of episodic tension-type headache: double-blind placebo-controlled comparison with acetaminophen (1000 mg), 38
S-fluoxetine in the prophylaxis of migraine: a phase II double-blind randomized placebo-controlled study, 283
pleocytosis
Cerebral blood flow changes in pseudomigraine with pleocytosis analyzed by single photon emission computed tomography. A spreading depression mechanism? 570
polymorphisms
Migraine and prothrombotic genetic risk factors, 257
post-lumbar puncture headache
Significant reduction in post-lumbar puncture headache using an atraumatic needle. A double-blind, controlled clinical trial, 635
potentiation
Interictal potentiation of passive "oddball" auditory event-related potentials in migraine, 261
predictive factors
Flunarizine in migraine prophylaxis: predictive factors for a positive response, 349
premonitory symptoms
Premonitory and prodromal symptoms in cluster headache, 91
prevalence
Epidemiology of tension-type headache in Santiago, Chile: a prevalence study, 552
primary headache
Peripheral autonomic potentials in primary headache and drug-induced headache, 216
prodromata
Premonitory and prodromal symptoms in cluster headache, 91
prophylaxis
Flunarizine in migraine prophylaxis: predictive factors for a positive response, 349
protein C system
Genetic abnormalities of the protein C system: shared risk factors in young adults with migraine with aura and with ischemic stroke? 618
protein S deficiency
Genetic abnormalities of the protein C system: shared risk factors in young adults with migraine with aura and with ischemic stroke? 618
pseudomigraine
Cerebral blood flow changes in pseudomigraine with pleocytosis analyzed by single photon emission computed tomography. A spreading depression mechanism? 570
psychiatric comorbidity
Headache and psychiatric comorbidity: clinical aspects and outcome in an 8-year follow-up study, 455
psychomotor testing
Effects of the antimigraine compound zolmitriptan ('Zomig') on psychomotor performance alone and in combination with diazepam in healthy volunteers, 468
pupil
Combined evaluation of pupillary and cardiovascular responses to cold pressor test in cluster headache patients, 668
Oculosympathetic alterations in migaine patients, 77
quality of life
Quality of life in migraine and chronic daily headache patients, 638
Reliability of an illness severity measure for headache in a population sample of migraine sufferers, 44
quanititative measurement
Phonophobia in migraine, 243
Quantitative evaluation of photophobia and phonophobia in cluster headache, 250
questionnaire
Screening for migraine in the general population: validation of a simple questionnaire, 342
randomized clinical trial
Efficacy and adverse events of subcutaneous, oral, and intranasal sumatriptan used for migraine treatment: a systematic review based on number needed to treat, 532
randomized controlled trial
S-fluoxetine in the prophylaxis of migraine: a phase II double-blind randomized placebo-controlled study, 283
Ketoprofen (25 mg) in the symptomatic treatment of episodic tension-type headache: double-blind placebo-controlled comparison with acetaminophen (1000 mg), 38
receptors
Dopamine and migraine: a review of pharmacological, biochemical, neurophysiological, and therepeutic data, 174
referred pain
Trigger points and myofascial pain: toward understanding how they affect headaches, 436
relaxation
Nonpharmacological treatment for migraine: incremental utility of physical therapy with relaxation and thermal biofeedback, 266
relaxation training
Biofeedback-assisted relaxation training for young adolescents with tension-type headache: a controlled study, 463
reliability
Reliability of an illness severity measure for headache in a population sample of migraine sufferers, 44
Reliability of cephalic thermal thresholds in healthy subjects, 574
risk factors
Genetic abnormalities of the protein C system: shared risk factors in young adults with migraine with aura and with ischemic stroke? 618
Migraine and prothrombotic genetic risk factors, 257
safety
Safety trial with the $5HT_{1B/1D}$ agonist avitriptan (BMS-180048) in patients with migraine who have experienced pressure, tightness, and/or pain in the chest, neck, and/or throat following sumatriptan, 546
SCL-90-R
The psychological profiles of patients with whiplash-associated headache, 101

second cervical dorsal root ganglion
Glycerol gangliotomy of the second dorsal cervical root in rats: an experimental study to evaluate a minimal invasive approach for the treatment of the chronic cervicogenic headache, 612
sensitivity
Migraine in childhood and adolescence. A critical study of the diagnostic criteria and of the influence of age on clinical findings, 333
sensory nerves
Thermal sensitivity in unilateral headaches, 675
serotonin
Methysergide, 421
Serotonin metabolism in cluster headache, 94
serotonin metabolism
Serotonin metabolism in cluster headache, 94
serotonin transporter
Altered allelic distributions of the serotonin transporter gene in migraine without aura and migraine with aura, 23
SF-36 health survey
Quality of life in migraine and chronic daily headache patients, 638
sixth-nerve palsy
Head pain associated with sixth-nerve palsy: spontaneous dissection of the internal carotid artery, 112
smoking
Gender ratio of cluster headache over the years: a possible role of changes in lifestyle, 138
specificity
Migraine in childhood and adolescence. A critical study of the diagnostic criteria and of the influence of age on clinical findings, 333
spectroscopy
Structural and neurochemical markers of brain injury in the migraine diathesis of systemic lupus erythematosus, 209
spiral dorsal horn
Differential effects of the $5HT_{1B/1D}$ receptor agonist naratriptan on trigeminal versus spinal nociceptive responses, 659
spreading depression
Cerebral blood flow changes in pseudomigraine with pleocytosis analyzed by single photon emission computed tomography. A spreading depression mechanism? 570
strain gauge plethysmography
Effect of subcutaneous naratriptan on forearm blood flow, 476
stress
Combined evaluation of pupillary and cardiovascular responses to cold pressor test in cluster headache patients, 668
stroke
Orbital pain as an isolated sign of internal carotid artery dissection. A diagnostic pitfall, 222
subcutaneous
Effect of operationalized computer diagnosis on the therapeutic results of sumatriptan in general practice, 481
Effect of subcutaneous naratriptan on forearm blood flow, 476
subdural hemorrhage
Idiopathic spontaneous subdural hemorrhage, 490
sumariptan
cardiovascular safety of $5HT_{1B/1D}$ agonists—Is there a cause for concern? 539
Consistency of response to sumatriptan nasal spray across patient subgroups and migraine types, 273
Differential effects of migraine drugs on cerebral blood flow autoregulation, 306
Effect of operationalized computer diagnosis on the therapeutic results of sumatriptan in general practice, 481
Efficacy and adverse events of subcutaneous, oral, and intranasal sumatriptan used for migraine treatment: a systematic review based on number needed to treat, 532
Endothelin in migraine patients, 329
How does sumatriptan nasal spray perform in clinical practice? 278
Sumatriptan nasal spray (20 mg/dose) in the acute treatment of cluster headache, 487
SUNCT
Trigeminal neuralgia with lacrimation or SUNCT syndrome? 85
sympathetic nervous system
Oculosympathetic alterations in migaine patients, 77
Tanacetum parthenium
Feverfew as a preventive treatment for migraine: a systematic review, 704
tenderness
Measurement of muscle hardness: a methodological study, 106
tension-type headache
Headache after whiplash: a historical cohort study outside the medico-legal context, 559
Headache and psychiatric comorbidity: clinical aspects and outcome in an 8-year follow-up study, 455
Epidemiology of tension-type headache in Santiago, Chile: a prevalence study, 552
Measurement of muscle hardness: a methodological study, 106
Migraine and glaucoma: an epidemiologic survey of French ophthalmologists, 74
Photophobia and phonophobia in tension-type and cervicogenic headache, 313
tension-type headache in children
Biofeedback-assisted relaxation training for young adolescents with tension-type headache: a controlled study, 463
thermal biofeedback
Nonpharmacological treatment for migraine: incremental utility of physical therapy with relaxation and thermal biofeedback, 266
thermal thresholds
Reliability of cephalic thermal thresholds in healthy subjects, 574
Thermal sensitivity in unilateral headaches, 675
threshold
Quantitative evaluation of photophobia and phonophobia in cluster headache, 250
thyroid hormone therapy
Headache in hypothyroidism. Prevalence and outcome under thyroid hormone therapy, 687

tolerability
Tolerability and efficacy of naratriptan tablets with long-term treatment (6 months), 33
transcranial Doppler ultrasound
No effect of prophylactic treatment with metoprolol on cerebrovascular $CO_2$ reactivity in migraineurs, 353
transesophageal echocardiography
Headache as the initial manifestation of acute aortic dissection type A, 583
trapezius muscle
Measurement of muscle hardness: a methodological study, 106
treatment
The hypnic ("alarm clock") headache syndrome, 152
trigeminal neuralgia
Chronic paroxysmal hemicrania-tic syndrome, 159
Trigeminal neuralgia with lacrimation or SUNCT syndrome? 85
trigeminal nucleus caudalis
Differential effects of the $5HT_{1B/1D}$ receptor agonist naratriptan on trigeminal versus spinal nociceptive responses, 659
trigger points
Trigger points and myofascial pain: toward understanding how they affect headaches, 436
tyramine
Oculosympathetic alterations in migaine patients, 77
ultrasound
Myogenic cerebrovascular autoregulation in migraine measured by stress transcranial Doppler sonography, 133
ultrastructure
Glycerol gangliotomy of the second dorsal cervical root in rats: an experimental study to evaluate a minimal invasive approach for the treatment of the chronic cervicogenic headache, 612
unilateral
The hypnic headache syndrome: report of three new cases, 157
urinary 6-sulphatoxymelatonin
Abnormal 24-hour urinary excretory patter n of 6-sulphatoxymelatonin in both phases of cluster headache, 664
validation
operationalized computer diagnosis on the therapeutic results of sumatriptan in general practice, 481
Screening for migraine in the general population: validation of a simple questionnaire, 342
vasodilator capacitance
Age-related cerebrovascular disease alters the symptomatic course of migraine, 202
vertebral artery
Role of vertebral artery hypoplasia in migraine, 684
visual aura of migraine
Cognitive processing in migraine: a failure to find facilitation in patients with aura, 125
visual evoked potentials
EEG spectral analysis in migraine without aura attacks, 324
whiplash
The psychological profiles of patients with whiplash-associated headache, 101
zolmitriptan
Effects of the antimigraine compound zolmitriptan ('Zomig') on psychomotor performance alone and in combination with diazepam in healthy volunteers, 468
whiplash trauma
Headache after whiplash: a historical cohort study outside the medico-legal context, 559
Zomig
Effects of the antimigraine compound zolmitriptan ('Zomig') on psychomotor performance alone and in combination with diazepam in healthy volunteers, 468
